

HOW TO USE OUR LIST....

Our wine list is comprised of hand-selected labels from small, hands-on producers. We have a grand selection of Santa Barbara County Wines as we celebrate the amazing wealth of talent in our own back yard. We also offer an eclectic mix of other California and some International labels. We believe in matching the food with the wine so going outside of our area to find the perfect pairing is sometimes imperative.

We offer two lists: the regular restaurant list and the endangered species list. All wines on the restaurant list are available in large quantities although we do ask that you make your wine selection at least 7 days prior to your event to ensure availability. The endangered species list is comprised of limited hard-to-find wines and may be appropriate for smaller groups, specific wine pairings or for wine tastings. These wines are difficult to come by and are going fast so let us know right away if you would like to offer them at your event and we will set them aside.

We are proud of this list and would love to help you make your selections. Feel free to ask for suggestions and pairings. Wines marked with an (*) are our house wines and are available in large quantity on short notice.
